 Anthracite	 Chrome	 Copper	 Matt nickel
 Nickel	 Bronze	 Polished brass	 Brushed brass

Technical details

- No keyhole — the plate is blank. For a door that does not lock with a key: wardrobe, child's bedroom, communicating door
- Keyhole cut-out — the classic keyhole-shaped drilling, for a bit key. This is the standard drilling for older French interior doors
- Euro cylinder — a round hole, for a cylinder lock. Found on more recent locks
- Bathroom/WC turn — the small thumb-turn on the inside, with its emergency release on the outside. This is the drilling for bathrooms and WCs
