Specifications

Material	Stainless steel 304
Use	Exterior, Heavy duty, for over 200,000 openings
Unit of sale	One handle

Technical drawing

Dimensioned drawing on request: contact@millapoignees.com

Technical details

- Ø 38 mm tube: comfortable and easy grip, even with gloves
- Solid 5 mm thick plate: anti-tear reinforcement to limit damage
- Anti-blocking design: prevents the passage of a bar to block the door
- Fixing on thick and wide brackets: better rigidity, less play in use
- Secure through-fixing: tamper-proof self-breaking nuts on tightening
