

TECHNICAL DATA SHEET

Bronze brass door handle on long backplate Mathilde - French made

Specifications

Square spindle provided	7 mm (French standard)
Compatible with lift-up lock	Yes

Technical drawing

Dimensioned drawing on request: contact@millapoignees.com

Technical details

- No keyhole — the plate is solid. For a door that does not lock: wardrobe, child's bedroom, communicating door
- L-key — the traditional keyhole-shaped drilling, for a bit key. This is the drilling used on old French interior doors
- Euro cylinder — a round hole for a cylinder. Found on more recent locks
- Bathroom turn — the small button turned from the inside, with an emergency release on the outside. This is the drilling for bathrooms and WCs
